National TB Control Programme
Islamabad, Pakistan
Background:
DOTS Expansion Working Group (DEWG) and World Health Organization (WHO) invited Federal Secretary Health and National Programme Manager, NTP to participate in the International Union Against TB and Lung Diseases (IUATLD) Conference. The conference was held in Paris, France between 16-20 October at Palais de Congrès hotel.

Other participants from the National, Provincial TB Programmes and representatives from organizations working on TB in Pakistan also attended the conference and meetings held with international stakeholders and technical experts.

The National Programme Manager with key NTP staff had to attend the important DEWG meeting, however, the meeting was not attended due to delay in the issuance of visas.

The objective of the trip was to:

1) Advocate international community for enhanced response to PPM interventions and conduct a “Meet Friends of NTP Pakistan” meeting and lobby for Public Private Partnership

Plan:
A number of meetings were planned including one to one meetings with representatives of International Union, The Netherlands TB Foundation (KNCV), TB CAP, WHO and other international stakeholders. Please refer to Annex C.

Meet Friends of NTP Pakistan:
The Secretary Health Pakistan, Mr. Suleman Ghani led a delegation of Ministry of Health. The delegation comprised of Dr. Noor Ahmad Baloch, Manager, National TB Control Programme, Director General Health Punjab, Managers Sind Provincial TB Control Programme, Dr. Ejaz Qadeer, Research Coordinator WHO seconded in NTP and Dr. Muhammad Tariq, Technical Advisor, Advocacy, Communication & Social Mobilization with Global Fund, NTP.

The delegate participated in the 39th IUATLD (International Union Against Tuberculosis and Lung Diseases) Conference and highlighted Pakistan’s achievement in TB control. IUATLD Conference is the largest annual gathering of Professionals, Researchers, Policy makers, donors, bi and multinational donors and different International NGOs working on TB/HIV/LUNG Health.

Mr. Suleman Ghani attended the Opening ceremony on 16th October and attended a session on Health System Strengthening. He informed about progress in Pakistan and Initiative of Health Sector reforms and plan and investment of government of Pakistan. He
informed that Pakistan is committed to improve access to quality of health care in the form of both political and financial commitments and there is no space for complacency.

Mr. Ghani met Dr. Neils Billo, Executive Director, UNION, Dr. Don Enarson, Professor Emeritus, Dr. Zuhair Halaj, Special Advisor to WHO and Dr. Akihiro Seita, Regional Advisor, WHO/EMRO and expressed the full commitment of Pakistan and discussed different arrears of mutual interest for the National TB Control Programme, Pakistan.

National TB Control Program hosted a meeting called “Meet The Friends of NTP Pakistan” The meeting was chaired by Secretary Health and was attended by International Union, WHO, GFATM, USAID, DFID, WHO, JICA, GLRA, GTZ, Mission Head COMDIS, Population Services International, Stop TB Partnership member states, scientists, researchers and media representatives.

The meeting started with welcome remarks and presentation by the National Manager, Dr. Noor Ahmad Baloch; that provided a comprehensive overview of Programme’s concerted efforts for improving the quality of life of the people living with TB. Components like DOTS expansion, Public Private Partnership, Advocacy, Communication and Social Mobilization, TB/HIV Co-infection, Multi Drug Resistance TB, Childhood TB. The scope of work that is supporting more than 5,000 TB diagnostic and treatment centers provided treatment to more than 800,000 patients since 2001.

The achievements of Pakistan in TB was acknowledged by the World TB community including WHO and Union, however, no room for complacency said the Secretary Health, Pakistan.

Mr. Ghani said that 22% of Pakistani people are going to the public health facilities, however the remaining needs to be tapped through a meaningful public private partnership and strengthening health systems. Such partnership is the ONLY answer to a sustainable solution to TB services in Pakistan. Secretary Health, acknowledged the support of international organizations and presented shields to friends of NTP Pakistan at the end of session.

**Meeting with International Union – Dr. Neils Billo:**
As planned, Mr. Ghani met Mr. Neils Billo of International Union on 17th October 2008. Secretary Health emphasized the need that Pakistan should accelerate efforts of community mobilization and bring clients to health establishments for TB diagnostic and treatment services. He said that innovative models using local community leaders for advocacy and sensitization should be developed in addition to technical assistance on Childhood TB and strengthening of Laboratory components. Mr. Billo assured that Union will extend all possible assistance for developing human capacity in the Laboratory, Community Participation and Multi drug resistance and childhood TB. The International Union appreciated achievements of TB Control Program by achieving Targets set by WHO in a sort time. NTP Pakistan is following up with Union in developing a course module for Pakistan to develop a critical mass of master trainers.
Meeting with KNCV:
Mr. Ghani also met the delegate of KNCV headed by Mr. Peter Gondrie and discussed the mechanism and operational modalities of USAID grant of 3.9 Million dollar from September 2008. KNCV a Dutch organization working on TB for 100 years and provides technical assistance to more than 20 countries globally.

The cooperation to the TB Control Programme will be extended through the TB-CAP, a multilateral mechanism to support TB Control Program in Pakistan. The KNCV presented their plan for Pakistan and appreciated the efforts made by the Government of Pakistan. Secretary welcomed the KNCV and assured assistance and providing office at NTP premises.

Meeting on Prevalence Survey:
Delegate also convened a meeting on Prevalence Survey to estimate the prevalence of tuberculosis in the country planned during the year 2009-10. The meeting was held to discuss the preliminary preparations. It was agreed that first draft of protocols will be finalized by December 2008. It was also decided that NTP will coordinate with AKHU for ethical clearance of protocols. The detail work plan and TORs will be prepared in joint meeting between WHO, KNCV and NTP. The specification for X-rays and other equipments will be prepared by JATA and will be discussed. AKUH laboratory will provided technical support for DST. It was also agreed that National Programme Research Unit will lead the process of implementation of the project and NPM will be the Principal Investigator.

NTP Pakistan Stall with WHO EMRO and Afghanistan:
NTP, Pakistan took the opportunity and organized a stall at the IUATLD Conference to promote and disseminate publications developed by the TB Programme. International Advocacy Kit, PPM Situation Assessment, National ACSM Strategy and M&E Guidelines were also distributed. A banner was used to display all publications. Collar pin a promotional item was also distributed among the conference participants. A total of 100 units each item were distributed.

Meeting with COMDIS:
On 18th October 2008, NTP had a meeting with the COMDIS representative based in Leads University. Following were the salient features of the meeting to improve coordination between NTP and COMDIS:

- A core group consisting of 8-9 individuals from NTP, ASD and private sector will be established to oversee all development proposals for Pakistan.

- The proposals for possible support from COMDIS should be designed in view of national requirements for ACSM through a consultative process.

Both NTP and COMDIS agreed to follow up on the decisions taken at the Paris Conference

NTP Poster Presentation:
NTP delegate presented the following poster presentations during the conference:
1. Experience of Franchising DOTS services in three Metropolitan Cities of Pakistan: Qadeer E, Ahmad N, Tariq M, Baddar D, Ghaffor A, Khan M

2. Who makes the best treatment supporter for tuberculosis: outcomes from implementation of DOTS in Pakistan: Ahmad N, Qadeer E, Walley J, Shah K, Khan A, Tariq M

## Annex A: Participants of the Meet Friends of NTP Pakistan

1. Dr. Don Enarson  
   Professor Emeritus, Former Secretary STOP TB Partnership
2. Mr. Peter Gonderie  
   Executive Director, The Netherlands TB Foundation (KNCV)
3. Dr. Neils Billo  
   Executive Director, International Union
4. Dr. Akihiro Seita  
   Regional Advisor, WHO, EMRO
5. Dr. Amal Basiri  
   WHO Focal Person, TDR
6. Dr. Faizullah Kakar  
   Deputy Minister Special Projects, Afghanistan

Pak efforts to achieve MDGs on TB appreciated

SHR JAHFERY

ISLAMABAD—Pakistan’s efforts to achieve Millennium Development Goals on Tuberculosis were widely appreciated in the 39th IUATLD (International Union Against Tuberculosis and Lung Diseases) Conference held in Paris recently.

A delegation led by the Secretary Health Pakistan, Suleman Ghani comprising of Dr Noor Ahmad Baloch (National Manager, TB Control Programme), Director General Health Punjab, Sindh Provincial TB Control Programme Manager, Research and Advocacy, Communication & Social Mobilization Technical Advisors. The objective of the visit was to participate and highlight Pakistan’s achievement in TB control.

The Conference is the largest annual gathering of Professionals, Researchers, policy makers, donors, bi and multinational donors and different International NGOs working on TB/HIV/LUNG Health. Ghani attended the Opening ceremony on 16th October and also a session on Health System Strengthening. He informed the participants about progress in Pakistan and Initiative of Health Sector reforms and plan, and the investment of government of Pakistan.

He apprised that Pakistan is committed to improve access to quality of health care in the form of both political and financial commitments and there was no space for complacency. Pakistan’s Federal Secretary Health also met Dr Neil Billo, Executive Director, UNION, Dr. Don Enarson, Professor Emeritus, Dr. Zuhair Hali, Special Advisor to WHO and Dr. Akihiro Seita, Regional Advisor, WHO/EMRO and expressed the full commitment of Pakistan and discussed different areas of mutual interest for the National TB Control Programme, Pakistan. Dr. Neil Billo assured that Union will extend all possible assistance for developing human capacity in the Laboratory, Community Participation and Multi drug resistance and childhood TB. The International Union appreciated achievements of TB Control Program by achieving Targets set by WHO in a short time. He also met the delegate of KNCV headed by Peter Mortziger and discussed the mechanism and operational modalities of USAID grant of 3.9 Million dollar from September 2008.

KNCV is a Dutch organization working on TB since last 100 years and provides technical assistance to more than 20 countries globally. The Cooperation to the TB Control Programme will be extended through the TB-CAP, a multilateral mechanism to support TB Control Program in Pakistan. The KNCV presented their Plan to work in Pakistan and appreciated the efforts made by the Government of Pakistan. Secretary welcomed the KNCV and assured assistance and providing office at NTP office. National TB Control Program hosted a meeting called “Meet the Friends of NTP Pakistan.” The meeting was chaired by Secretary Health and was attended by International Union, WHO, GFATM, USAID, DFID, WHO, JICA, Stop TB Partnership member states, scientists, researchers and media representatives. The meeting was started with the presentation of the National Manager, Dr. Noor Ahmad Baloch that provided a comprehensive overview of Programme’s concerted efforts for improving the quality of life of the people living with TB.

Components like DOTS expansion, Public Private Partnership, Advocacy, Communication and Social Mobilization, TB/HIV Co-infection, Multi Drug Resistance TB, Childhood TB

The programme supporting more than 5,000 TB diagnostic and treatment centers provided treatment to more than 800,000 patients since 2001. The achievements of Pakistan in TB was acknowledged by the World TB community including WHO and Union, however, there was no room for complacency, said, the Secretary Health, Pakistan.
Efforts to MDGs on TB lauded

Statesman Report

PESHAWAR: Pakistan’s efforts to achieve Millennium Development Goals on Tuberculosis (TB) were widely appreciated in the 39th IUATLD (International Union against Tuberculosis and Lung Diseases) conference held in Paris recently.

A delegation led by Secretary Health Pakistan, Suleman Ghani comprising of Dr Noor Ahmad Baloch (National Manager, TB Control Programme), Director General Health Punjab, Siadh Provincial TB Control Programme Manager, Research and Advocacy, Communication & Social Mobilisation Technical Advisors attended the conference.

Ghani attended the opening ceremony on 16th October and also a session on health system strengthening.

He appraised that Pakistan is committed to improve access to quality of health care in the form of both political and financial commitments and there was no space for complacency.

Federal Secretary Health also met Dr Neil Billo, Executive Director, UNION, Dr. Don Enarson, Professor Emeritus, Dr Zuhair Halaj, Special Advisor to WHO and Dr. Akihiro Seita, Regional Advisor, WHO/EMRO and expressed full commitment and discussed different areas of mutual interest for the National TB Control Programme.

Ghani also met the delegate of KNCV headed by Peter Mortzger and discussed the mechanism and operational modalities of USAID grant of 3.9 million dollar from September 2008.
Pakistan’s efforts to control TB appreciated

RECORDEER REPORT
ISLAMABAD: Pakistan’s efforts to achieve Millennium Development Goals (MDGs) set to control tuberculosis (TB) were widely appreciated in the 39th IUATLD (International Union Against Tuberculosis and Lung Diseases) conference in Paris, says a press release issued here on Thursday.

The objective of Pakistan’s participation was to highlight the achievements for TB control. The conference was the largest annual gathering of professionals, researchers, policymakers, donors and different international NGOs working on TB, HIV and lung health.

Speaking on the occasion, Secretary Health, Suleman Ghani apprised the participants that Pakistan is committed to improve access to quality healthcare and held meeting with UN officials expressing Pakistan’s full commitment for making National TB Control Programme, a success.

Ghani also met the delegate of KNCV headed by Peter Mortgager and discussed the mechanism and operational modalities of USAID grant of 3.9 million dollars from September 2008. KNCV is a Dutch organisation working on TB since last 100 years and provides technical assistance to more than 20 countries.

The cooperation to the TB Control Programme will be extended through the TB-CAP, a multilateral mechanism to support TB control programme in Pakistan.

National TB control programme hosted a meeting called “Meet the Friends of NTP Pakistan” which was chaired by secretary health and attended by International Union, WHO, GFATM, USAID, DFID, WHO, Jica, Stop TB Partnership member states, scientists, researchers and media representatives.

The programme supporting more than 5,000 TB diagnostic and treatment centres provided treatment to more than 800,000 patients since 2001.

A delegation led by Secretary Health Pakistan, Suleman Ghani comprising of Dr Noor Ahmad Baloch (National Manager, TB Control Programme), Director General Health Punjab, Sindh Provincial TB Control Programme Manager, Research and Advocacy, Communication & Social Mobilisation Technical Advisors participated in the conference. Secretary health acknowledged the support of international organisations and presented shields to friends of Pakistan.
Efforts to achieve MDGs on tuberculosis appreciated

Muhammad Qasim
Islamabad

Pakistan's efforts to achieve the Millennium Development Goals on tuberculosis were widely appreciated at the 38th International Union Against Tuberculosis & Lung Diseases (IUATLD) Conference held in Paris recently.

A spokesman of National TB Control Programme claimed this while talking to 'The News' here Thursday, adding that a delegation, led by Secretary Health Pakistan Saleem Ghani and comprising National Manager TB Control Programme Dr Noor Ahmad Baloch and other officials participated in the conference.

The spokesman said the objective of the visit was to participate and highlight Pakistan's achievements in TB control, as the Conference is the largest annual gathering of professionals, researchers, policy makers, donors, and representatives of different International NGOs working on TB/HIV/Lung Health.

Giving a brief on the activities of the delegation, the spokesman said that Federal Secretary Health Saleem Ghani attended the opening ceremony of the 38th conference on October 10 as well as a session on Health System Strengthening, where he informed the participants about the progress in Pakistan and Initiative of Health Sector reforms and plan, and the investment of Government of Pakistan. He apprised that Pakistan is committed to improve the access to quality healthcare in the form of both political and financial commitments and there was no room for complacency.

The Federal Health Secretary also attended Executive Director IUATLD Dr Neil Billo, Professor Emeritus Dr Don Enstrom, Special Advisor to WHO, Dr Zuhair Haq, and Regional Advisor WHO Eastern Mediterranean Regional Office (EMRO) Dr Achino Seita, and expressed Pakistan's full commitment along with discussing different areas of mutual interest for Pakistan's National TB Control Programme. Dr Neil Billo assured that the Union would extend all possible assistance for developing human capacity in laboratory, community participation, and multi drug resistance and childhood TB.

Ghani also met the KNCV delegation headed by Peter Mortz, and discussed the mechanism and operational modalities of a 14.2 million USAID grant from September 2008. KNCV, a Dutch organization working on TB since 1981, said that the last 10 years that provides technical assistance to more than 20 countries globally. Cooperation with the TB Control Programme will be extended through TB-CAP, a bilateral mechanism to support the Programme in Pakistan. KNCV presented its plan to work in Pakistan and appreciated the efforts made by the Pakistani government.

According to the spokesman, National TB Control Programme also hosted a meeting called 'Meet the Friends of NTP Pakistan', chaired by the health secretary, that was attended by scientists and researchers of IUATLD, WHO, GFATM, USAID, DTD, WHO, REA, Stop TB Partnership member states and media representatives. In the meeting, National Manager TB Control Dr Noor Ahmad Baloch gave a presentation on comprehensive overview of the Programme's concerted efforts for improving the quality of life of people living with TB. He informed the participants about the Programme components such as DOTS expansion, Public Private Partnership, Advocacy, Communication and Social Mobilization, TB/HIV Co-infection, Multi Drug Resistance TB, and Childhood TB. The Programme has been supporting more than 5,000 TB diagnostic and treatment centres and providing treatment to more than 500,000 patients since 2000.

The Health secretary said that the World TB community including WHO and IUATLD, acknowledged Pakistan's achievements in TB, adding that 22 per cent of Pakistani people visit public health facilities, however, the remaining need to be tapped through a meaningful public private partnership and strengthening health systems. Such partnership is the only answer to a sustainable solution to TB services in Pakistan. The health secretary also acknowledged the support of international organisations.
